Giovanna Massei, National Wildlife Management Centre, York, United Kingdom
Jonathan Mawdsley, Association of Fish and Wildlife Agencies, Washington, D.C.
Zachary D. Miller, Utah State University, Logan, Utah
Jessica Tegt, Utah State University, Logan, Utah
John M. Tomeček, Texas A&M University, College Station, Texas
Desley Whisson, Deakin University, Burwood, Victoria, Australia

Journal Subject Area: *Human-Wildlife Interactions* publishes manuscripts on all aspects of human-wildlife interactions, particularly research articles in wildlife management, wildlife ecology, management applications, economics, and human dimensions. We encourage letters to the editor, opinion pieces, point-counterpoint articles, policy issues, and notes on research and new techniques.

How to Submit Manuscripts: Submit manuscripts online at digitalcommons.usu.edu/hwi. The policy of *HWI* requires authors to cover page charges of \$100 per published page (about 2.5 double-spaced manuscript pages comprise a published page). These charges allow *HWI* to operate. Anyone is welcome to submit a manuscript, particularly those working in operations or with practical field experience in wildlife management. Email hwi@usu.edu with inquiries about manuscript scope or the submission process.

Subscriptions: *Human-Wildlife Interactions* is an open-access journal. Printed back issues may be available and can be purchased for \$10 each (domestic) or \$20 each (foreign). Inquire about the availability of a printed back issue by contacting Rae Ann Hart at raeann.hart@usu.edu.

Advertisements: *Human-Wildlife Interactions* accepts digital advertisements. For advertising specifications, contact hwi@usu.edu.

Articles appearing in *Human-Wildlife Interactions* are included in the following research indexes: *Animal Behavior Abstracts*, *Aquatic Sciences and Fisheries Abstracts*, *Biological Abstracts*, *BIOSIS Previews*, *Current Contents*, *EBSCO*, *Ecology Abstracts*, *SCOPUS*, *Science Citation Index Expanded*, *Thomson Reuters' Journal Citation Reports*, *Web of Science*, *Web of Knowledge*, *Wildlife and Ecology Studies Worldwide*, *Wildlife Review Abstracts*, *Wilson's Biological and Agricultural Index*, and *Zoological Record*.

Cover photo: The COVID-19 outbreak in China was traced back to the horseshoe bat family (*Rhinolophus* spp.). COVID-19 is one of >1,400 zoonotic diseases that can be transmitted from wildlife to humans (photo from Science Source Images).
